University of California, Irvine
Bren Hall 2019
Irvine, CA 92697-1250

Dear Faculty Search Committee,

I am writing to apply for the position of Assistant Professor in the Department of Statistics at the University of California Irvine.

I am currently a postdoctoral researcher with Prof. Tamara Broderick at the Massachusetts Institute of Technology's Laboratory for Information and Decision Systems, where I study the robustness of frequentist and Bayesian statistical procedures, both theoretically and with applications including single-cell RNA sequencing analysis, development economics, and a MURI-grant funded study of ocean dynamics. I received my PhD in statistics from the University of California at Berkeley under the supervision of Prof. Michael Jordan, Prof. Jon McAuliffe, and Prof. Tamara Broderick. Additionally, I have earned an MSc with distinction in econometrics from the London School of Economics and BS degrees in mathematics and engineering mechanics with honors from the University of Illinois at Urbana-Champaign. My work history includes four years as an engineer at Google and two years as a Peace Corps volunteer in Kazakhstan.

I appreciate your consideration. Sincerely,

Dr. Ryan J. Giordano

A handwritten signature in brown ink, appearing to read 'R. J. Giordano', written over a faint, light-colored grid background.
